**Re: STB Docket EP 670 (Sub - No. 2) *Notice of Rail Energy Transportation
Advisory Committee Vacancies***

Dear Mr. Higgins:

This letter is in response to the decision served in the referenced proceeding on October 28, 2013, which solicited nominations for a representative of a public utility to fill a vacancy on the Railroad Energy Transportation Advisory Committee ("RETAC"). The decision requested that suggestions for candidates to fill this position be filed by November 27, 2013. The undersigned requests that the Board consider Mr. Greg Workman of Dominion Resources for this position. Dominion is an investor-owned public utility headquartered in Richmond, Virginia, that owns and operates natural gas and coal fired generation throughout the mid-Atlantic region of the United States. Presently, approximately 10 million tons of coal from various mining regions are delivered annually by railroad to Dominion's generating plants.

Mr. Workman has been employed by Dominion for 12 years, and presently serves in the position of Director - Fuels. In this and prior positions with the utility, Mr. Workman has overseen Dominion's coal and rail transportation procurement, rail and car lease contracting and other logistical matters. Prior to joining Dominion, Mr. Workman worked for Norfolk Southern Railway in various capacities. Mr. Workman is therefore extremely qualified to

serve on the RETAC and would make an invaluable contribution as a knowledgeable and candid representative of the public utility sector of the industry.

Mr. Workman has authorized the undersigned to inform the Board that he is interested in filling this position. Mr. Workman is not a federally registered lobbyist. He is willing to serve as a member of the RETAC for a three-year term beginning immediately upon appointment and ending September 30, 2016.

Mr. Workman's contact information is provided below:
